Tensar[®]

CPD SEMINARS

Continuing Professional Development
presentation overview

CPD
CERTIFIED

Tensor are pleased to offer a wide range of CPD seminars which can be carried out a time and location to suit yourself and your colleagues. Our CPD seminars are available to suit the needs of our customers and can be arranged as breakfast, lunch or evening sessions.

These seminars have been designed to explain and keep you apprised of the latest developments in the use of Tensor geosynthetics.

Tensor can also cover the cost of lunch for all attendees.

Whether you are looking to arrange a CPD seminar, have an enquiry or need some assistance on your next project then contact us using the details below.

Contents

TriAx[®]

An introduction to Tensar geogrid technology

 **ROADS AND
PLATFORMS**

A solution to your Subgrade
Stabilisation projects

 **WALLS
AND SLOPES**

A solution to your wall and
slope projects

Tensar[®]
ROAD TECHNOLOGY

A solution to your new and existing
road design and repair projects

A556 Improvement Scheme - Tensar mechanical stabilisation using Tensar TriAx

An introduction to Tensor geogrid technology

This seminar has been created to provide an introduction to subgrade stabilisation and reinforced soil retaining structures.

Learning Outcomes:

- Brief introduction to Tensor® as a company
- Learn the benefits of TriAx® stabilisation methodology
- The advantages of using geogrids against traditional methods

TriAx®

LOCATION

At the audience's premises

COST

Free

DURATION

1 hour

PROVIDED WITH SEMINAR

Tensor literature and software* available on request following seminar

TARGET AUDIENCE

Clients, Consultants and Contractors

CPD's can be tailored to suit attendee's requirements.

*Software provided with training.

Tensor®
ROAD TECHNOLOGY

CPD

A solution to your Subgrade Stabilisation projects

This seminar has been created to provide an introduction to subgrade stabilisation including unpaved roads and piling platforms.

Learning Outcomes:

- Explore the advantages of subgrade stabilisation methods using Tensar® geogrids
- Discover how the use of TriAx® geogrids can:

Increase project savings

Lower environmental impact

Speed up project time
